

Good for my
immune system!¹

Zell Oxygen® Immunkomplex

Natural, proven effective

Zell Oxygen® Immunkomplex

Zell Oxygen® Immunkomplex is a natural product with a balanced immune active complex with several decades of proven efficacy in supporting the immune system⁽¹⁾. Numerous in-vivo and in-vitro-studies attest to its efficacy.

Many athletes also use Zell Oxygen® Immunkomplex in exercise phases involving particular strain on the immune system.

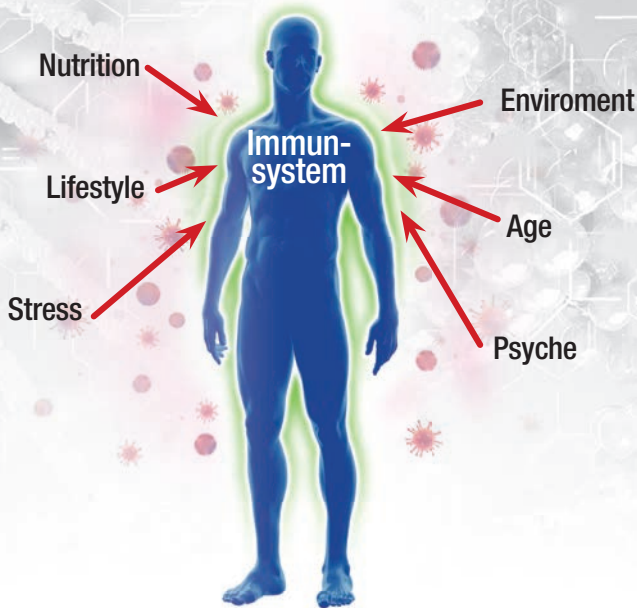

Dr. med. Dipl. Ing. Georg Wolz

Dr. Wolz Zell GmbH has been involved in the field of health prevention and maintenance since 1969. Stringent quality criteria and the particular composition of the products ensure a considerable beneficial effect for health.

Zell Oxygen® Immunkomplex Dr. Wolz

- ➔ For a strong immune response ⁽¹⁾
- ➔ In phases of physical exertion ⁽²⁾
- ➔ Protects your body's cells ⁽³⁾

Support for the immune system

Our immune system is a very complex network spread throughout the body. It also includes the bone marrow, lymph nodes, tonsils and the gut. In order to function properly, the immune system relies on an adequate supply of nutrients. Should this be disrupted, the immune system's response can be weakened.

Anyone with increased needs in this area would be better advised to supplement their micronutrient requirement in the form of a combination of many ingredients as they occur in nature than with synthetic isolated substances. In Zell Oxygen® Immunkomplex this is achieved by embedding the micronutrients into the enzyme yeast cells.

Also free radicals released though metabolic processes can impair the immune system because of their ability to damage the body's cells. Zell Oxygen® Immunkomplex contains many substances such as vitamin E and selenium which counteract this „oxidative stress“ and thus shield cells.⁽³⁾

Zell Oxygen® Immunkomplex

- With valuable secondary plant substances from various selected fruit and vegetable complexes, as for example Lycopene
- With Enzyme Yeast Cells Dr. Wolz®
- With zinc, selenium and a wide spectrum of vitamins
- With the sun vitamin D3
- With a high content of beta-glucanes of yeast (*Saccharomyces cerevisiae*)

The immune system regimen (3 x 250 ml) can provide longterm support.

Product of the Year 2014

Quality earns its rewards. So Zell Oxygen® Immunkomplex was distinguished by the expert panel of the German health food stores as Product of the Year 2014.

The innovative nature of the product and adherence to strict Neuform quality guidelines helps orientation in choosing the right products.

Zell Oxygen® Immunkomplex

Cell count: Approximately 120 billion yeast cells per 30 ml

Minerals, trace elements:	per 30 ml
▶ Zinc (1)	10 mg
▶ Selen (1), (3)	55 µg

Bioactive Substances: (abstract)	
▶ 6.000 proteins very familiar to the human proteins	
▶ Glutathione	
▶ Cell wall fractions	
▶ 1,6 Glucan / 1,3 Mannans	
▶ SH-rich Scleroproteines	
▶ Glucosamin	
▶ Peptide	
▶ Phosphate	
▶ Phosphatidylcholin	
▶ Cardiolipin	
▶ Ergosterol	
▶ Chromosomal and mitochondrial DNA Sequences	

Vitamins:	per 30 ml
▶ Vitamin B1	2,2 mg
▶ Vitamin B2 ⁽²⁾	2,8 mg
▶ Vitamin B6 ^{(1), (2)}	2,8 mg
▶ Vitamin B12 ^{(1), (2)}	5 µg
▶ Niacin (NE) ⁽²⁾	16 mg
▶ Pantothenic acid ⁽²⁾	6 mg
▶ Biotin	100 µg
▶ Natural Vitamin E ⁽³⁾	24 mg
▶ Vitamin D3	5 µg 200 I.E.

Beta-Glucanes:	per 30 ml
▶ (1-3), (1-6)-β-D-Glucane	900 mg

Amino acids:	per 30 ml
▶ Glycine	107 mg
▶ Alanine	145 mg
▶ Serine	120 mg
▶ Threonine	120 mg
▶ Valine	135 mg
▶ Leucine	170 mg
▶ Aspartic acid	250 mg
▶ Glutamine	370 mg
▶ Arginine	120 mg
▶ Lysine	175 mg
▶ Cysteine	24 mg
▶ Methionine	38 mg
▶ Tyrosine	78 mg
▶ Phenylalanine	100 mg
▶ Proline	81 mg
▶ Tryptophane	28 mg

Enzymes, Coenzymes: (abstract)	
▶ Proteases	
▶ Cytochromoxidases	
▶ Invertase	
▶ Superoxiddismutase	
▶ NADH	
▶ α-Liponic acid	
▶ Q6, Q10	

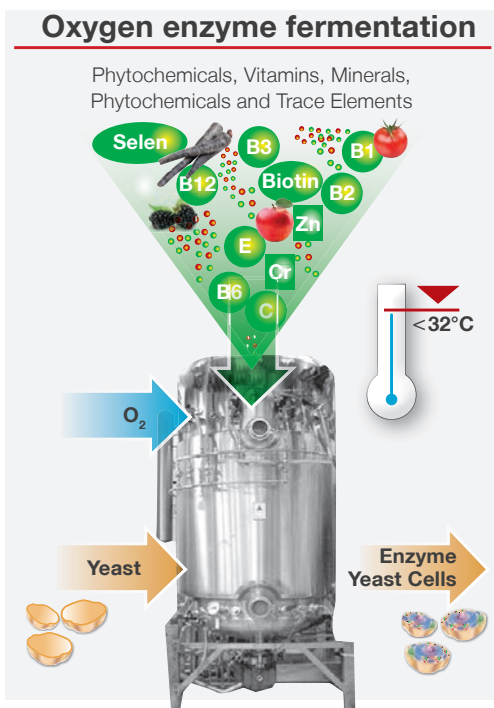

Without gluten, lactose, colouring and preservatives.

- 1) The contained vitamins B6, B12 as well as selenium and zinc contribute to a normal function of the immune system.
- 2) The vitamins B2, B6, B12, niacin and pantothenic acid contribute to the reduction of tiredness and fatigue.
- 3) Vitamin E, zinc and selenium also aid in shielding cells from oxidative stress.

Enzym-Hefezellen Dr. Wolz®

A unique natural product!

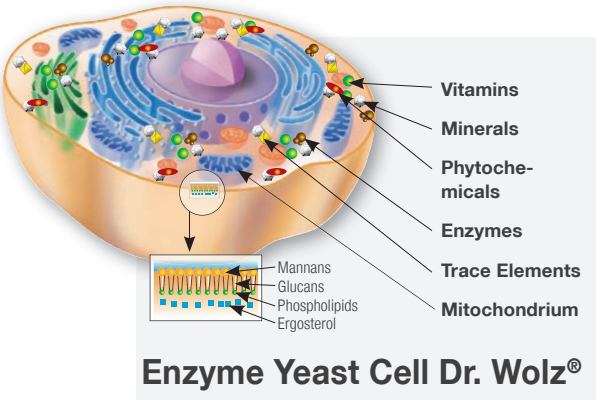

Enzyme yeast cells are the product of many years of research. They are cultivated in a special manufacturing process lasting several days – oxygen-enzyme-fermentation according to the special Dr. Wolz technique – while receiving oxygen on a specific nutrient bed of phytochemicals, vitamins, minerals and trace elements. This procedure is unique in ensuring that the enzyme yeast cells remain biologically active.

Every single Enzyme Yeast Cell Dr. Wolz® acts as a carrier for these numerous bioactive nutrients*, preserving them in their natural form – like a natural cell-based pharmacy. Due to all the key processes in yeast cells and human cells functioning the same or similarly they can be used in researching cell biology. The Zell Oxygen® products contain thousands of millions of fresh enzyme yeast cells!

Enzyme yeast cells are distinct from other yeast products. The production process guarantees that:

- **enzyme yeast cells cannot possibly multiply in the human body!**
- **as enzyme yeast cells do not undergo any thermal or drying process such as for yeast tablets or yeast powders, all the proven ingredients are retained in a natural intact form.**
- **the cell ingredients are absorbed optimally in the bowel, which is facilitated by enzyme yeast cells' resistance to gastric acid and bile acid!**

So, Zell Oxygen® products are not just a mixture of individual substances, but a bioactive, natural product. They were developed by the biotechnologist Siegfried Wolz, a colleague of the Nobel Laureate Feodor Lynen. Since then numerous papers and application reports have been published. Users in over 30 countries swear by the beneficial effect of Enzyme Yeast Cells Dr. Wolz®.
