

Bioactive natural substance
product for a healthy cell function

Zell Oxygen® plus

Natural, proven effective

Zell Oxygen® plus Dr. Wolz

For a healthy cell
function.

Dr. med. Dipl. Ing. Georg Wolz

The effect of Zell Oxygen® plus has been verified by in-vivo and in-vitro studies. A glass a day full of abundant precious, cell-supplying and cell-protecting substances.^{1, 2, 3}

Dr. Wolz Zell GmbH has been active in the field of health prevention and preservation for 45 years.

Stringent quality criteria and the particular composition of the products ensure a considerable beneficial effect for health.

Zell Oxygen® plus

- Protecting our cells from oxidative stress¹
- During phases of exertion³
- Lessens tiredness and fatigue³
- With a poor diet²

Why are

Enzyme Yeast Cells Dr. Wolz[®] different from with other yeasts?

- Baker's yeasts undergo further fermentation in the body.
- Beer yeast is a degradation product of breweries. It is heated, processed as powder, flakes or tablets, and has no enzymatic activity.
- The enzyme yeast cells according to the special Dr. Wolz technique are cultivated on a vitamin-enriched nutrient medium fortified with fruit concentrates. Enzym-Hefezellen Dr. Wolz therefore are a speciality - For there is yeast and yeast.

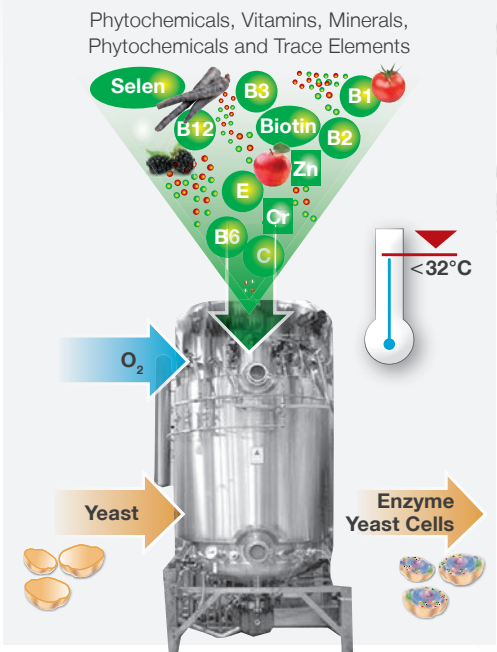

Enzym-Hefezellen Dr. Wolz®

A unique natural product!

Enzyme yeast cells are the product of many years of research. They are cultivated in a special manufacturing process lasting several days – oxygen-enzyme-fermentation according to the special Dr. Wolz technique – while receiving oxygen on a specific nutrient bed of phytochemicals, vitamins, minerals and trace elements. This procedure is unique in ensuring that the enzyme yeast cells remain biologically active.

Oxygen enzyme fermentation

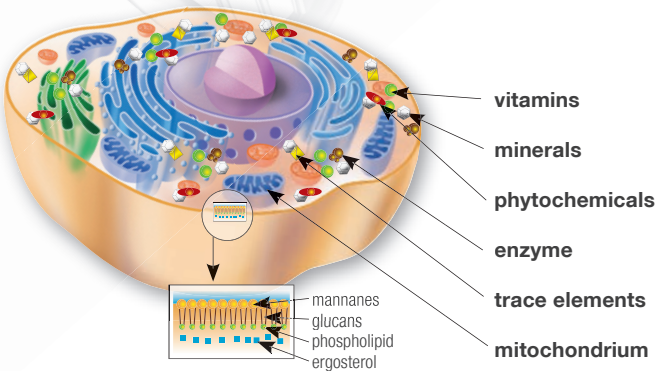

Every single Enzyme Yeast Cell Dr. Wolz® acts as a carrier for these numerous bioactive nutrients*, preserving them in their natural form – like a natural cell-based pharmacy. Due to all the key processes in yeast cells and human cells functioning the same or similarly they can be used in researching cell biology. The Zell Oxygen® products contain thousands of millions of fresh enzyme yeast cells!

Enzyme yeast cells are distinct from other yeast products. The production process guarantees that:

- **enzyme yeast cells cannot possibly multiply in the human body!**
- **as enzyme yeast cells do not undergo any thermal or drying process such as for yeast tablets or yeast powders, all the proven ingredients are retained in a natural intact form.**
- **the cell ingredients are absorbed optimally in the bowel, which is facilitated by enzyme yeast cells' resistance to gastric acid and bile acid!**

Enzyme yeast cell Dr. Wolz®

So, Zell Oxygen® products are not just a mixture of individual substances, but a bioactive, natural product. They were developed by the biotechnologist Siegfried Wolz, a colleague of the Nobel Laureate Feodor Lynen. Since then numerous papers and application reports have been published. Users in over 30 countries swear by the beneficial effect of Enzyme Yeast Cells Dr. Wolz®.

Zell Oxygen® plusDr. Wolz

Ingredients:

Cell count:

Approximately 200 billion yeast cells per 30 ml

Bioactive Substances: (abstract)

- ▶ 6.000 proteins very familiar to the human proteins
- ▶ Glutathione
- ▶ Cell wall fractions
1,6 Glucan / 1,3 Mannans
- ▶ SH-rich Scleroproteines
Glucosamins
- ▶ Peptides
- ▶ Phosphates
- ▶ Phosphatidylcholine
- ▶ Cardiolipin
- ▶ Ergosterol
- ▶ Chromosomal und mitochondrial DNA Sequences

Amino acids:

per 30 ml

- ▶ Glycine 170 mg
- ▶ Alanine 230 mg
- ▶ Serine 190 mg
- ▶ Threonine 190 mg
- ▶ Valine 210 mg
- ▶ Leucine 270 mg
- ▶ Aspartic acid 400 mg
- ▶ Glutamine 590 mg
- ▶ Arginine 190 mg
- ▶ Lysine 280 mg
- ▶ Cysteine 39 mg
- ▶ Methionine 60 mg
- ▶ Tyrosine 125 mg
- ▶ Phenylalanine 160 mg
- ▶ Proline 130 mg
- ▶ Tryptophane 45 mg

Vitamins:

per 30 ml

- ▶ Vitamin B1 (2) 2,2 mg
- ▶ Vitamin B2 (1, 2, 3) 2,8 mg
- ▶ Vitamin B6 (2, 3) 2,8 mg
- ▶ Vitamin B12 (2, 3) 5 µg
- ▶ Niacin (NE) (2, 3) 16 mg
- ▶ Pantothenic acid (2, 3) 6 mg
- ▶ Biotin (2) 100 µg
- ▶ Natural Vitamin E (1) 24 mg

Minerals,

trace elements:

per 30 ml

- ▶ Zinc (1) 5 mg
- ▶ Selenium (1) 55 µg

Enzymes, Coenzymes: (abstract)

- ▶ Proteases
- ▶ Cytochromoxidases
- ▶ Invertase
- ▶ Superoxidismutase
- ▶ NADH
- ▶ α-Liponic acid
- ▶ Q6, Q10w

(1) In Zell oxygen® plus contained Vitamins B2 and E such as selenium and zinc contributes the protection of cells from oxidative stress

(2) The contained B-Vitamins contributes to normal energy-yielding metabolism such as

(3) contributes to the reduction of tiredness and fatigue.

Without gluten, lactose, colours and preservatives.

Dr. Wolz products

with Enzyme yeast cells

Zell Oxygen® + Gelée Royale

Zell Oxygen® formula

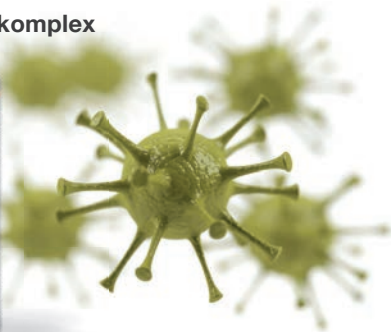

healthy skin
and hair

Repair-
complex

for the
well-being

Zell Oxygen® Immunkomplex

Zell Oxygen® ZYM anti-aging
